BATTLE OF DROP

Goal

Be the first to win the number of rounds based on the number of players:
2=7 rounds / 3=5 rounds / 4=4 rounds.

To win a round, two conditions are possible:

- 1 / You are the last player still in the game.
- 2 / The deck is empty, and you have the card with the highest value in hand. If there is a tie between several players, the sum of the cards placed during the round is compared.

Set up

The youngest player starts the first round. For the following rounds, the first player will be the winner of the previous round.

At each start of the round, the first player shuffles the 16 cards and distributes to each player a card face down, then each player takes his card in hand. If you are 2 players, draw 3 more cards and place them face up on the table.

Game progress

The first player draws a card and adds it to his hand. He chooses one of the two cards and places it face up in front of him. (his following cards will be placed on top). He reads the powers of the card and applies its effect (see the list of cards on the back). Once the effect is applied, his turn is over; it's the turn of the player to his left to play.

If a player is eliminated from the round, he places his card face up without playing the effect and waits for the end of the round.

Summary of a tour:

- 1 / Draw a card
- 2 / Place one of the two cards
- 3 / Apply the effect

"Battle Of Drop" is a game inspired by "Love Letter" designed by Seiji Kanai. It was designed and produced by Damien Clergeaud, Shawn Pinciara, Vincent Mangaud, Etienne Chauzy, Jonathan Lardillier, And Lila Descamps whom we especially thank for the illustrations!
